

Community Partner Spotlight

Compass Mark has been a leading member of the Lancaster community in the fight to combat substance abuse and misuse in the region. Through funding from the Lancaster Drug and Alcohol Commission, Compass Mark began a new program initiative called the Community Prevention Mobilizer. The initiative is designed to provide resources and technical assistance to grassroots organizations and coalitions throughout Lancaster County. The goal of this program is to actively facilitate the growth and expansion of community-based drug prevention activities at the local level. One example of the programs offered by the Community Prevention Mobilizer is Social Development Strategy training which fosters the health and success of individuals from birth through every stage of life. In addition, the Community Prevention Mobilizer also supports and advises various community collaborations in regard to best practices of drug and alcohol prevention.
